## Panel Install Manager

### Description About the role

#### THE SUCCESSFUL CANDIDATE MUST HAVE INDUSTRIAL/COMMERCIAL EXPERIENCE

A Tier 2 Contractor that delivers a range of Industrial and Commercial projects is seeking for an experienced **Panel Install Manager** to join their team in Brisbane. The candidate will be responsible for Insulated Panel and Racking projects ranging from \$10,000 – \$2m.

The successful applicant is responsible for organizing and leading the branch installations team, ensuring that all projects are installed according to company standards.

You will be given all the support and training required to perform your role to the highest standard as well as the freedom to make the role your own. The role is a mixture of office and site based that offers a competitive package.

### Company Description

- An established Tier 2 company with an outstanding track record working on a diverse set of projects up to \$40m in value
- The business specializes in Commercial, Education and residential projects up to \$40 million in value
- Join a dynamic, collaborative and energetic team with a strong sense of teamwork

### Working environment

- This company prides itself on having an incredibly talented and dedicated team that aims to deliver high work standards and attention to detail for every project they take on. They are committed on building long-lasting relationships through innovative and quality design management and construction solutions.

### Responsibilities

- Plan and coordinate cool store panel installations
- Evaluate and manage the resources and processes required for the successful completion of a high volume of store panel projects.
