## Project Manager – Civil

### Description

Our client is a privately owned Civil & Building Contractor working on small to medium sized civil projects throughout South East Queensland.

Due to significant project wins, the company is now seeking to hire an experienced Project Engineer/Project Manager to work on a variety of projects from Bulk Earthworks, Storm Water Drainage to Defence and Sub Divisions.

Established within the last decade by respected civil professionals this company is now seeking to add their next important member to their ever expanding, high performing team.

With the work 100% based in Brisbane, this role offers an opportunity to live in Brisbane all year round without any FIFO or travel.

### Responsibilities

The PM will be responsible for everything from ITP/RFI Completion, Programming & Planning Works, Liaising with the Client, Managing Day to Day Operations, Overseeing Site Crews, Managing Documentation and Compliance etc...

### Qualifications

The ideal candidate will have the following:

- A Degree in Civil/ Structural Engineering or Construction Management
- A minimum of 5- 10 years Civil/ Infrastructure Experience as a Project Engineer or Project Manager in Australia
- Must have experience in Tier 2 or Tier 3 Contractors
- Must be an exceptional team player who puts the team before self
- Must be a Permanent Australian Resident

### Job Benefits

On offer includes a competitive salary package up to \$120,000 + Car + Super + Tech Bundle

To apply for this role send an updated CV via the apply now button or contact Mick Donaghy on 0450294639.
