Project Manager

Description

MUST HAVE COMMERCIAL FIT OUT EXPERIENCE

About the role

We have partnered with a dynamic commercial fit-out construction business operating in Queensland. Having recently been awarded a new project, they are now seeking a Project Manager who will display their leadership skills by overseeing their projects from planning stage to completion.

The successful candidate will be working alongside an experienced site team and reporting to the BDM.

As a Project Manager, you will oversee high end commercial fit out with an estimate value of \$2M. You will demonstrate strong interpersonal skills to manage multiple parties and ability to deliver projects under tight timeframes.

Company Description

- A Construction Specialist that strives to approach each project with strong technical expertise, planning and expert risk management.
- Specializes in commercial refurbishment, fitout, design and construction projects
- Committed on consistently delivering complex projects, bringing fresh ideas and a new way of thinking in to the construction industry.

Working environment

- This company is well-known for their unique approach to contracting and strong track record of project delivery. They are proud to have a diverse set of highly skilled team that works collaboratively throughout every aspect of the process.

Responsibilities

Hiring organization

Franklin Smith Australia

Employment Type
