## Site Supervisor

### Description About the role

Due to continued successful growth our client is seeking for a Site Supervisor to join their team in Hervey Bay. The successful candidate will be working alongside an experienced site team and reporting to the director of the company.

As a Site Supervisor, you will oversee multiple custom residential projects with an estimated value of \$5M. You will demonstrate strong interpersonal skills to manage multiple parties and the ability to deliver projects under tight timeframes.

This is a permanent and full-time position that offers a competitive package.

### Employment Type

Full-time

### Beginning of employment

ASAP

### Industry

Construction

### Job Location

Hervey Bay, Queensland, Australia

### Date posted

December 6, 2023

### Company Description

- An energetic Custom Home Builder carrying out exceptional design and quality finish that turns your dream home into a reality
- A business that strives to uphold its core values to ensure outstanding results for all projects.
- Be part of a dynamic team that strives for continuous improvement and provides personal development opportunities and growth

### Working environment

- The company is recognized as a well-respected custom home-building specialist. This company prides itself on having an incredibly talented and dedicated team and aims to provide its clients and stakeholders with the highest standard of workmanship, quality and service.

### Responsibilities

- Supervise, organize and plan day to day on-site activities to ensure smooth construction delivery within the stipulated schedule.
- Drive a positive HSEQ culture throughout the organisation
- Deal with on-site issues effectively and professionally, while focused on time, quality and cost control
- Attend client H&S meetings when required
- Ensure effective close out of projects
- Keep up to date site records

- Monitor progress and report to the project team
- Provide weekly updates to Site Manager, Project Manager and Client
- Liaise with Clients, Stakeholders and Consultants on site

## **Qualifications**

- 2+ years' experience as a Site Supervisor in Australia
- A strong understanding of all current building codes and legislation
- Must be fully ticketed – to all standards
- Relevant professional qualifications; trade or tertiary
- Trade background ideal but not necessary
- Experience working directly with site teams
- Excellent communication and management skills.
- Ability to work with others in a team environment
- A pro-active attitude with good communication skills and strong attention to detail
- Achieve targets whilst maintaining a high standard of quality

## **Job Benefits**

- The company offers a market leading package, paying up to \$100,000 package and a strong career development plan that facilitates growth and professional development
